List of Changes for Conditional Approval of the Portland Harbor RI Report
January 8, 2016

Document File	Required Change	LWG Comment and/or Clarification Request. No entry indicates we will make the revision change as directed.
Global changes	Remove “total” before DDx in all instances throughout report. EPA has done this in text; however, LWG needs to do this for the remainder of the report. EPA will identify below where it has been identified that files require this modification.	<ol style="list-style-type: none"> 1. This can be done, but throughout the Final BERA (RI Appendix G) and in the HHRA tables (RI Appendix F) “total DDx” is used. We propose retaining “total” in the RI for consistency with the RAs. 2. EPA has not done this in the text files we received for Sections 5 and 10. Please confirm that we received the final EPA files. 3. If EPA directs that “total” be removed, the LWG will remove it as stated in EPA’s Required Change (specifically, where EPA has identified below those files that require this modification).
	Prepare electronic version of report in accordance with EPA guidelines. See file How to Create a Web-Ready PDF.docx	
Text & Front Matter	Combine Title Page, Executive Summary, Table of Contents, List of Figures, List of Tables, List of Maps, List of Acronyms, and section text into one pdf file.	Typically, we would place the Executive Summary at the end of the front matter. Does EPA want it immediately after the title page?
	Remove all comments.	

Document File	Required Change	LWG Comment and/or Clarification Request. No entry indicates we will make the revision change as directed.
Title Page	Add “Prepared for the USEPA by Respondents to the Administrative Settlement Agreement and Order on Consent for Remedial Investigation and Feasibility Study U.S. EPA Docket Number CERCLA-10-2001-0240”	The LWG is compiling this document as directed by EPA, and it fully intends to comply with all of its obligations under the AOC. However, as explained in the LWG’s letter of June 12, 2015, because this document is no longer the work of the LWG and its consultants, the LWG requests that the document’s authorship not be cited as or attributed to the LWG. This change has no substantive effect. The LWG therefore requests that EPA withdraw this required change.
	Update date to February 8, 2016.	
Executive Summary	See file 2016-01-08 Portland Harbor RI Executive Summary.docx	
Table of Contents, List of Figures, List of Tables, List of Maps	Update with required changes to titles as provided in detail below.	
List of Acronyms	No changes	
Section 1.0 Text	See file 2016-01-08 Portland Harbor RI Section 1 Text.docx	<ol style="list-style-type: none"> 1. Per the direction to delete Section 12 (glossary) below, we will also delete mention of Section 12 in bulleted report organization list in Section 1. 2. EPA does not mention Appendix I (interactive maps) in these comments. Are these to be included? If not, we will delete their listing in the TOC, and brief mention in Section 1

Maps	Combine maps for sections 1-10 into one pdf file.	This will create a 210 MB file that will be difficult to download and work with. We recommend generating a set of map files that are approximately 50 MB each.
	Update all headers to “Portland Harbor RI/FS Final Remedial Investigation Report February 8, 2016”	Due to the labor and time-intensive effort needed to update the existing headers as requested, we propose adding this statement to the top right of each map. An example of this alternative approach is attached for EPA review. If EPA does not accept this alternative approach, the LWG will need to discuss with EPA the time that will be required to do it as EPA has directed, because this will have a schedule impact.

Other		<p>The LWG notes that the Final RI text files provided by EPA are not in Redline/Strikeout mode so it is not possible to know or focus on what has been revised. The LWG does not plan to do a full document comparison to check EPA’s final changes and will accept everything as is. The LWG will endeavor to fix obvious typos and formatting issues created by the EPA edits where those are apparent, e.g., header indentation offsets, for final document internal consistency.</p>
		<p>The LWG will produce one hard copy version of the report by February 8. The LWG will be able to provide additional hard copies after that date.</p> <p>The following Appendices will be provided on DVD only and not be printed as part of the hard copy of the RI:</p> <p>Appendix A2—Data excluded from RI data set Appendix A3—SCRA database Appendix A5—Portland Harbor RI/FS data reports Appendix C1—Stormwater summary stats (84 pages)</p>
